

Professional Development Solutions

We personalize all of our professional development;

All sessions can and will be tailored to the needs and preferred delivery model of your school, staff and community. We look forward to working with you!

Curriculum Support

FitMoney Customized Curriculum Maps/Scope and Sequences: FitMoney's curriculum team will customize a curriculum map or scope and sequence for your teachers to fit the specific needs of your school's schedule.

FitMoney 101: A full introduction to FitMoney's purpose, mission and curriculum. Delivered as a full staff or grade-specific professional development session, teachers will get a hands-on look at the curriculum, work with their team to plan for a successful curriculum implementation, and tailor the curriculum to their students' needs with the guidance of the FitMoney Curriculum Team. Sessions can run 45 minutes up to two hours, depending on the level of personalization. See a [sample slide deck here](#).

FitMoney Q&A Session: For teams who want follow up live support from the FitMoney team. As a virtual or in-person session, up to 10 participants can work in small groups with FitMoney team members to troubleshoot, scope and plan or customize and differentiate FitMoney materials.

Sample Pricing: All professional development contracts are customized. The table to the right shows sample price points. We find it is best practice to have each PD focus on a certain grade band: elementary, middle or high school and recommend separate PD sessions for teachers at each level. We will always work with your school team to find the best solution that works for you.
