

Risk vs. Return

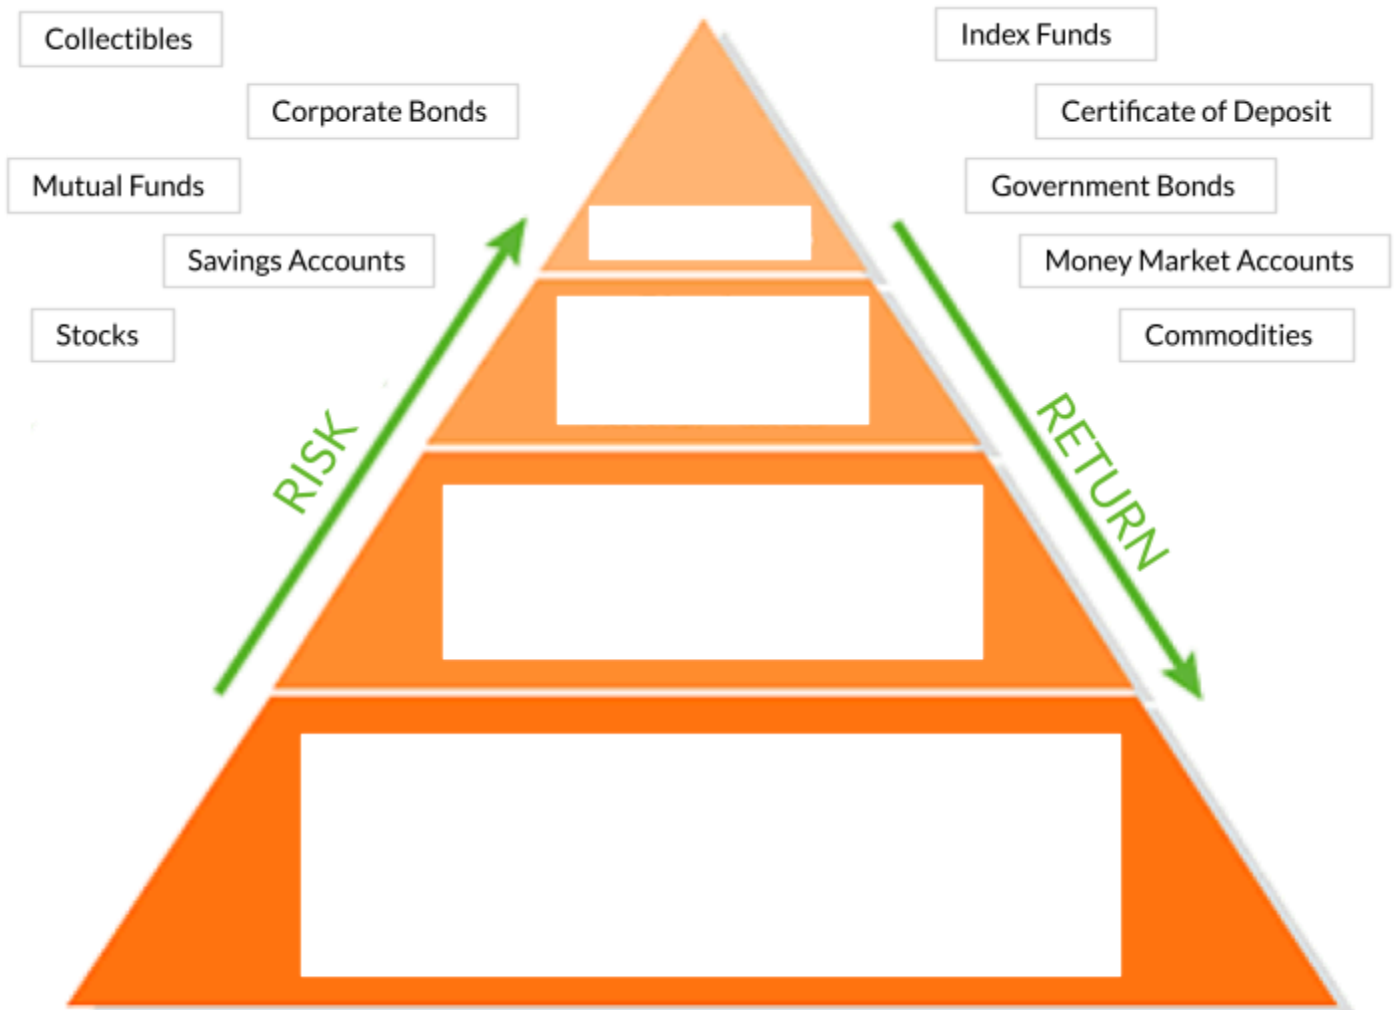

HS.INV.2. Inflation & Savings vs. Interest

Record the class definitions for the following terms:

Risk:	Return:
How are they (usually) related?	

Write the terms in the appropriate section of the pyramid.

Completing this assignment digitally? Click on the pyramid, Click on  Edit at lower left, then drag and drop the terms into the proper section of the pyramid!

STAX Game: Define As You Play

HS.INV.3. Manage Your Money Part One

Directions: Go to buildyourstax.com and using your class's group code, play the STAX game. As you "unlock" each product, read and write down the definition of each product in your own words in the boxes below. Make sure your definition includes how high or low the potential risk and return are on that product.

POCKET CASH		
SAVINGS ACCOUNT	CERTIFICATE OF DEPOSIT (CD)	INDEX FUND
INDIVIDUAL STOCKS		
GOVERNMENT BONDS	COMMODITIES	

Build Your STAX Reflection Questions

HS.INV.3. Manage Your Money Part One

1. Where did you decide to put your money? Where did you put the largest amount of money?
2. Were you successful?
3. Did your strategy change as you were playing?
4. Was it easy to “time the market,” when investing in individual stocks? This means were you able to buy low and sell high to make a profit.
5. What strategy did the “winner” use? Why do you think they made the most money?
